Some Common Faults
of Telephone Service and
How to Avoid Them

You probably never realized how many of the common faults of telephone service, as you come in contact with it, are due simply to *careless use* of the service by the public. Let us give you a few examples to illustrate this:

A number is guessed at, the wrong bell is rung, an innocent subscriber is disturbed, a voice says, "They gave me the wrong number"—and the Company gets the blame.

A bell rings,—it rings again—still no answer. The Operator finally reports, "They don't answer," (note she never says "they are not there") and the connection is taken down. Five seconds later—just six seconds too late—the ring is answered and the tardy subscriber gets "Number" from an Operator who knows nothing about the call in question as she had nothing to do with it. Upon being told "Why! you just rang my bell!" she can only say what we instruct her to say; "Excuse it, please. There is no one on your line now." She apparently acknowledges the error and again the Company is blamed; especially, when, a little later the called party meets the calling party and says she was "right there all the time."

A person steps in and "borrows" the use of a telephone. When through talking he leaves the telephone off the hook, thus keeping the line "busy" and causing a series of busy reports to be made to calling parties. Finally, a clerk, or servant, finds the receiver off and replaces it. Business is resumed and the friend, who has been "trying for fifteen minutes" to get the line blames the Company severely when he is told, truthfully, that "I have been right here all the time and the line hasn't been in use for twenty minutes."

The same thing results when the called for subscriber forgets, or overlooks, the fact that he is sharing a party line with someone else, and that therefore the line might easily have been "busy" all the time and he not know anything about it.

Now we have no desire to dodge our full responsibility for giving good service. We are not only willing but *very anxious* to learn all the real troubles of which you have to complain—even those for which we are not directly responsible.

We want this help from you-- in the form of accurate detail complaints—and we will help you cure those for which other subscribers are responsible; by printing these pages in our directory; by explaining in any way we can the operation of our system and the reasons for our rules and regulations; also by calling attention to the following *simple rules*, which, *if followed by all* will make it easy for us to give, and for you to get, Good Service—which is *what we are here for.*

REMEMBER THIS

No community ever enjoyed really first class telephone service unless the Telephone Company had the intelligent and hearty co-operation of its

SUBSCRIBERS AND THE PUBLIC

Rules for Good Service

1. Use the Directory. Never *try* to remember a telephone number. It's all right *if you do remember* it; but to *try* to remember is to begin to *guess*. If you have the least doubt about it, *look it up* and thus save time and trouble.

(As a matter of fact, you know, you have no more right to disturb a subscriber by guessing that his number is the one you want than you have to disturb him in any other entirely needless way.)

2. Spell Out all Numbers, by giving each figure separately, as "Main *one, three, seven, nine,*" for "Main 1379."

(The following of this rule is essential to good service. A majority of errors in calls is directly traceable to confusion between "eighteen" and "thirteen," "twenty-three" and "thirty-three," etc., which sound so much alike over the telephone; also to the fact that subscribers do not correct the Operator if she repeats the wrong number.)

3. Speak Distinctly, especially when giving the number to the operator, and when talking over a toll line. *Talk into the mouth-piece,* loud and close enough so they can *hear you easily.*

4. Answer Your Bell Promptly. A ring means a friend calling you—don't make him wait, or perhaps miss you entirely.

5. Call Central by giving the crank *two or three quick turns.* Don't ring too long. *Always ring off* when through talking.

6. Until Your Bell Stops Ringing do not remove the telephone from the hook.

7. Be Brief but Courteous to the Operators. We require them to be so to you. They have *no time to converse* with you; they *do not know* subscribers' names; they deal *entirely with numbers.*

Courtesy, like virtue, is its own reward, but pays *extra dividends* in connection with telephone service. *Try it.*

P. S.—By the way, when you know that a false call is due entirely to your careless use of the wrong number why not acknowledge it to the "innocent by-stander" who answers the call? Why leave the Operator to shoulder all the blame?

8. Call for "Information" when you can't find the telephone number you want, or to get answers to any questions regarding subscribers' names, numbers or addresses. Your regular Operator cannot answer such questions.

9. Report all complaints promptly to Chief Operator

To be most effective they should be not only prompt but should *describe accurately* the trouble encountered. Many forms of trouble look alike at first, and most of them we will not know about till you tell us. If you can't get Central at all, call up from a neighbor's or send us a postal card.

10. Advertise That You Have a Telephone, but *don't* put its "number" on your letter heads, bill heads, cards and *wagons. Why?* Because this only increases the amount of *trying to remember* such numbers by the public—also the continued use of obsolete numbers—which in turn *only hurts the service* and doesn't help your business at all. *Think this over.*

11. Be Reasonable. You always are—yes, of course—but what we mean is this. It is unfortunate—for us—that a telephone subscriber sees nothing, when getting service, but *himself and one telephone instrument.* He doesn't see the other hundreds or thousands of subscribers and he gets no idea of the work we are really doing and the violent and uncertain changes in the number of calls given us at various hours of the day.

We Have Rushes of Business just as the street cars, the stores and the Post Offices do. Yet a man who will *patiently* wait in line *two or three minutes* to be allowed to deposit his money in someone's Bank will become *"disgusted with such service"* if he has to wait in line *fifteen seconds* to get an Operator to connect him with his residence that he may inform them he "will be a little late to dinner."

It's a fact. And we think the reason is indicated above. It's human nature, perhaps; but human nature can be improved if one tries, and all we ask is that you try. Ask yourself these questions:

> *"Does any other company or store in town wait on me so uniformly promptly, or cause me so little direct loss of time, as does the Telephone Company?*
>
> *"Can I get the services of a street car, a clerk, a sales girl, a cashier, or of any one else nearly as quickly, whenever I want them, as I can those of a Telephone Operator?"*

So We Repeat—*be reasonable* in your complaints, and patient withal, if the operator is *occasionally* too busy, waiting on our other customers, to give you *instant* attention. Meanwhile we will undertake to make your average service prompt and the longer delays reasonably few and far between. When you are not satisfied with it, don't discuss the matter with the Operator, but let our Manager know about it.

12. Observe these Rules if you believe they are good ones. If not, call on our Manager, see our plant in operation, and give him an opportunity to convince you. For we must all work together if we are to have

GOOD SERVICE

Some Advantages of Rural Telephone Service

1. **In case of fire** the neighbors can be quickly aroused by telephone and their assistance secured.
2. **In sudden illness** the doctor can be called and information obtained as to what can be done temporarily, to alleviate pain or even prolong life, until he arrives.
3. **If the cows get in the corn,** or the pigs in the clover, or a horse gets cast—with only the women at home—the telephone will usually bring a willing neighbor to prevent loss of property.
4. **When tramps come to the door,** while the men folks are all out in the fields. the presence of the telephone will give the women courage, protect them from harm, and summon help.
5. **When products are for sale,** if the farmer is expecting prices to rise or fall, he can call the nearest market town, and can sell or buy to the best advantage at the right moment without uncertainty or loss of his time.
6. **The telephone pays for itself** by just such economy of time, energy, horse flesh, and wear and tear on harness and wagons, while the neighborly feeling and protection it gives your household is itself worth its entire cost.
7. **If the farmer is in town** and should unexpectedly be detained, how convenient to ring up his house and tell the anxious wife the cause of his delay; also to learn how things are at home.
8. **During the long winter evenings,** when it is difficult to go out and see the neighbors, the telephone will keep them informed of all that is going on and will help greatly to make the time pass pleasantly. By annihilating distances the telephone destroys the loneliness of country life.
9. **Parents can call their sons and daughters** who have moved to adjoining towns in case of sickness at home, or their sons and daughters can call them and let them know of their successes, or perhaps that there is sickness and the need of the mother's loving care.
10. **What a comfort and a saving of time** to be able to go to the telephone and call up your friend, ask the questions, deliver the messages or place the orders, instead of stopping work for the best part of the afternoon—taking off a horse that ought to be earning money—and driving miles, perhaps, over muddy, frozen or snow-bound roads.
11. **When getting a telephone, get the best**—the one that reaches everywhere—the Old Reliable—the one furnished by the

CENTRAL UNION TELEPHONE COMPANY

How to Make a Long Distance or Toll Call

Call Central by giving the crank two or three sharp turns.

When the Operator Answers by saying "Number," ask her for "Long Distance."

When the "Long Distance" Operator Answers, give her your own telephone number, your name and the telephone number—or the name and address—of the person with whom you wish to be connected, as follows; speaking *slowly and distinctly:*

> "This is Main, one, two, three; Mr. 'A.' talking.
>
> "I wish to talk with any one at Main, seven, eight, nine, Indianapolis, Ind.; (or,)
>
> "I wish to speak to Mr. 'B.' of the firm of 'B. & C.' at Indianapolis, Ind. If he is not there, I will talk with Mr. 'C.'" (or) "If he is not there, please leave word and call me when he comes in."

Remain Near the Telephone after having placed a Long Distance call. If you have to go out before the call is completed leave word *just when* you expect to return.

Don't Lose Your Incoming Calls, and the *business they represent,* by allowing your office boy or clerks to fail to notify you of them. You might as well allow them to throw away your incoming mail *unopened.* Therefore, if "Long Distance" requests that you call as soon as you return, *please do so.*

Appointments to Talk at a Specified Time will be made without additional charge, other than for the actual messenger services involved, if any. This feature of our service will often be found of great convenience.

If your Correspondent has no Telephone, and if you so desire, a Messenger will be sent to ask him to go to the nearest Public Pay Station. The expense for such *Messenger Service* will be charged to your telephone, but may be collected at the distant end instead, *if acceptable to the called party.*

Charges on "Long Distance" or Toll Calls can likewise be collected at the distant end *if the called party agrees* to such an arrangement. If you desire a call to be sent "collect," you should so state *at the time* you first give the call to "Long Distance."

McCray Refrigerators

Heat rises—cold descends. The adaptation of this law gives the constant circulation of air found only in **McCray Refrigerators.**

On each complete circuit through the refrigerator, this cold current absorbs the tainted and vitiated air and carries it to the ice chamber where by the processes of condensation it passes off with the melted ice. This maintains a dry, frigid atmosphere that keeps perishable things wholesome, maintains their natural color and confines within them every particle of their natural flavor.

McCray Refrigerators are built for Residences, Groceries, Florists, Markets, Hotels and Institutions.

Which Way Do You Sweep?

Weight 29 lbs.—One Person Operates It—Easy to Handle—Runs on Casters—One Inch Inside Diameter Hose—12-Inch Wide Cleaning Nozzle Price $35

The Victor Suction Cleaner

IS THE BEST DIRT GETTER IN THE WORLD

The VICTOR'S size, power and capacity is one with which you can realize real service. The speed and thorough manner with which it gets the dirt is marvelous. You can do a great variety of work with the VICTOR. Its suction can be varied at will. The VICTOR is exceedingly durable. It has no leather diaphragm (disk pump) to pull to pieces, and no high speed machinery to quickly wear out. Leather diaphragms crack and wear out the same as the leather on your shoes.

Don't Buy a Toy—Get a Real Serviceable Cleaner While You Are At It

If after a 30 days' trial you do not find that the VICTOR is by far the best hand suction cleaner on the market we refund your money without a question. Write for circulars today.

30 DAYS' FREE TRIAL We will ship you a **"RANGER" BICYCLE on approval, freight prepaid,** to any place in the United States, *without a cent deposit in advance,* and allow **30 days** free trial from the day you receive it. If it does not suit you in every way and is not all or more than we claim for it and a better bicycle than you can get anywhere else regardless of price, or if for any reason whatever you do not wish to keep it, ship it back to us at our expense for freight and you will *not be out one cent.*

RIDER AGENTS WANTED in each town and district to ride and exhibit a sample 1911 **"Ranger"** Bicycle furnished by us. **You will be astonished** at the *wonderfully low Prices* and the liberal propositions and special offer we will give you in the first 1911 sample going to your town. **Write at once** for our special offer. **DO NOT BUY** a bicycle or a pair of **tires** from anyone else or buy anything until you receive our Catalogue and learn our low prices and liberal terms.

BICYCLE DEALERS, you can sell our bicycles under your own name place at double our prices. Orders filled the day received.

SECOND-HAND BICYCLES a limited number taken in trade by our Chicago retail stores will be closed out at once at $3.00 to $8.00 each. Descriptive bargain list mailed free.

TIRES, COASTER-BRAKE rear wheels, inner tubes, lamps, sundries, parts, repairs and everything in the bicycle line at **half usual prices. DO NOT WAIT,** but write today for our *Large Catalogue* beautifully illustrated and containing a great fund of interesting matter and useful information. It only costs a postal to get a copy. **Write it now.**

WHILE Pompeian Massage Cream is used in several million homes by both husband and wife, yet in some homes men still think it is a woman's face cream, and again, women think it is a man's cream. Pompeian is for both, just as much as soap is for both. But Pompeian *cleanses, refreshes, improves* and *invigorates* the skin as no soap possibly can. There is no logical reason why either man or woman should have the cleaner or more wholesome skin.

We are all judged largely on first and general appearances — yes, judged before we speak. Comparatively few people come to know our inner selves. Hence the value of appearance; hence the necessity of a fresh, healthy, wholesome skin. Such a complexion is in itself a good introduction for man or woman into either social or business circles.

You are judged before you speak! "Don't envy a good complexion; use Pompeian and have one."

POMPEIAN Massage Cream

"At All Dealers"

Don't confuse Pompeian with "cold" or grease creams. Pompeian Massage Cream is entirely different in purpose, use and results. Pompeian "rolls" out of the pores, bringing the hidden dirt with it. It is this rolling-out feature which makes Pompeian Massage Cream entirely different from "cold" or grease creams, which stay in the pores. Use cold cream for cold cream uses, but when you want a cleansing massage cream insist on Pompeian. At all dealers 50c, 75c and $1.

Cut along this line, fill in and mail today

Trial Jar and Art Picture Both Sent for 10c (Stamps or Coin) for Postage and Packing

For years you have heard of Pompeian's merits and benefits. To get you to act now we will send a "Pompeian Beauty" Art Picture, in exquisite colors, with each trial jar. This is a rare offer. This "Pompeian Beauty" is very expensive and immensely popular. Clip coupon now.

The Pompeian Mfg. Co.,
190 Prospect St., Cleveland, O.

Gentlemen: Enclosed find 10c (stamps or coin) for postage and packing, for which please send me a trial jar of Pompeian and a "Pompeian Beauty Art Picture

Unmarried Men of America

You men who have no wives or sisters to darn for you will find genuine Holeproof Hose to be the softest, most comfortable, best fitting, most stylish hose ever worn. Six pairs are *guaranteed* not to wear out for six months. Please do not judge Holeproof Hosiery by ordinary guaranteed hose.

"Holeproof" comes in the very lightest weights—in all the latest colors, and are perfect in finish and weave.

They have every advantage that cotton hose can possess.

There are scores of poor imitations, so one must be careful to get the original. It bears the signature *Chas. Ennis & Co.* on the toe. Also the trade-mark shown in this ad.

Six pairs cost $1.50 up to $3.00, according to finish and weight. Get "Holeproof" at any store mentioned below.

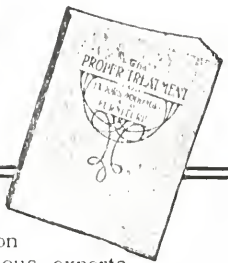
Instruction Book

and Wood Finishing Samples

FREE



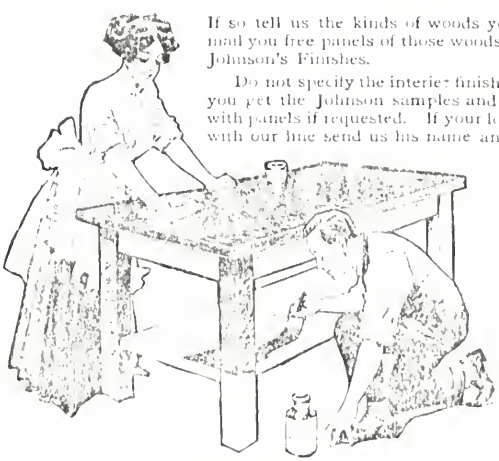
HERE'S the best book ever published on artistic wood finishing, the work of famous experts, illustrated in five colors. For a limited time only we will mail it free and postpaid to anyone interested in the latest and most artistic way of finishing furniture, woodwork and floors. Every architect and painter as well as home owners should have a copy.

JOHNSON'S WOOD DYE

is a dye pure and simple. It penetrates into the very heart of the wood, bringing out its natural beauty without raising the grain in the slightest. We manufacture it in 15 popular and artistic shades. With JOHNSON'S WOOD DYE, inexpensive soft woods such as Pine, Cypress, and Gum may be finished so they are just as beautiful as expensive hardwoods.

Johnson's Under-Lac is a thin, elastic, spirit finish very much superior to shellac or varnish. It dries hard in less than an hour. Under-Lac is just what you want for finishing your linoleum and oilcloth. It brings out the pattern, making it bright and glossy like new, protects it from wear and makes cleaning easy. It dries so the floors may be walked on in an hour.

ARE YOU BUILDING?



If so tell us the kinds of woods you will use and we will mail you free panels of those woods artistically treated with Johnson's Finishes.

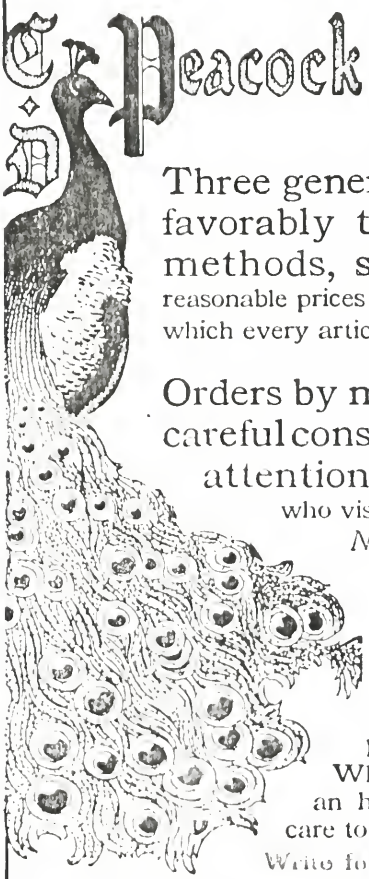
Do not specify the interior finish of your new home until you get the Johnson samples and our book, edition BTD, with panels if requested. If your local dealer is not familiar with our line send us his name and we will send him free samples and a copy of the Instruction Book. Call at store of local agent for free samples of Johnson's Wood Dye and Under-Lac. At this store you can see large panels of different woods treated with Johnson's Artistic Wood Finishes.

S. C. JOHNSON & SON - - Racine, Wis.

"The Wood Finishing Authorities"

WHY put up with just what you can get somewhere else when it takes no longer and costs less to select the desirable thing from Peacock's.

Buy from the Peacock Catalog



C. D. Peacock

The name that stands as a guarantee of quality wherever placed.

Three generations have testified favorably to Peacock business methods, satisfactory quality, reasonable prices and the value of the guarantee which every article bears.

Orders by mail receive the same careful consideration and prompt attention accorded customers who visit our store in person.

Nothing need be kept with which you are not entirely satisfied.

A Jewelry Store

where everything is **good**, and selection of the best for your particular purpose is simplified. When you come to Chicago spend an hour, or as much time as you care to looking around our store—

Plate No. 3908 shows Installation of "Chicago-Francis" Dryer and Laundry Stove in laundry room.

Chicago Dryer Co. Dept U 383-387 Wabash Ave. CHICAGO, ILL.

NO DELAY To Get the Clothes Dry on Wash Day

When using the "CHICAGO-FRANCIS" Combined Clothes Dryer and Laundry Stove. Clothes are dried without extra expense as the was chest from laundry stove heats the drying cabinet and dries the clothes. Can furnish stove suitable for burning coal, wood, artificial or natural gas. Dries the clothes as perfectly as sunshine. Especially adapted for use in residences, apartment buildings, hotels, hospitals and institutions. All dryers are built to order in various sizes and can be made to fit almost any laundry room. Thousands in use. No modern residence complete without a "Chicago Francis" Dryer. We manufacture Clothes Dryers of all kinds heated by steam, gas or stove. We also manufacture Clothes Dryers for lawn use. Write today for our handsomely illustrated No. U-12 catalog pertaining to our artificially heated dryers and also descriptive circular C. S. No. 1 pertaining to our Lawn Dryers. Both mailed free upon request.
